## Oxygen is a potent and life-saving drug

The method of oxygen dosing has remained the same as it was 100 years ago.

"Oxygen should be treated like any other drug."

Too much might be as harmful as not enough"

- Doctor Antonio Corrado  
Former chief of the respiratory department in Florence, Italy

PRO 100 is significantly better at keeping patients in the correct oxygen range and avoiding hypoxemia and hyperoxia.

Hyperoxia is associated with increased mortality in patients with COPD and a wide variety of other acute medical conditions.
